SUMMARY

Motivated Computer Science graduate with hands-on experience in full-stack development, machine learning, and AI integration. Builder mindset with proven ability to design, develop, and deploy end-to-end systems — demonstrated through SmartDine (an AI-enhanced restaurant management platform) and an AI-powered portfolio website with an embedded LLM chatbot. Complemented by operational experience at McDonald's and a strong foundation in both technical and professional skills.

PROJECTS

SmartDine — AI-Enhanced Restaurant Management System

Dissertation Project

Website : <https://smartdine.live/>

- Built a full-stack restaurant management system using Django (backend), React (frontend), and PostgreSQL as the primary database.
- Integrated machine learning models (scikit-learn) for demand forecasting, menu recommendation, and sales prediction.
- Designed and implemented RESTful API endpoints with JWT authentication and role-based access control.
- Containerised the entire application using Docker for consistent development and deployment environments.
- Managed sprint-based development workflow covering architecture design, ML model evaluation, and UI/UX prototyping.

AI Portfolio Website — LLM-Powered Interactive Portfolio

Personal Project

Website : <https://aniruddh.site>

- Developed a modern portfolio website using Next.js, TypeScript, and Tailwind CSS with animated UI, scroll reveals, and a typewriter hero section.
- Built an embedded AI chatbot powered by Groq API (Llama 3.3 70B) that answers visitor questions about skills, experience, and projects in real time.
- Engineered a dynamic system prompt that auto-generates context from portfolio data, ensuring the chatbot always reflects the latest information.
- Implemented a secure server-side API route to protect API keys from client-side exposure.
- Designed a floating chat widget with suggested questions, markdown rendering, and responsive mobile-first layout.

EXPERIENCE

Web Developer — Orange Technolab

06/2021 – 11/2022

- Developed and maintained full-stack web applications using HTML, CSS, JavaScript, and backend frameworks, delivering responsive, cross-browser-compatible interfaces.
- Collaborated with the design and product teams to translate client requirements into functional, scalable web solutions.
- Built and integrated RESTful APIs, improving data flow between frontend and backend services.
- Optimised existing codebases for performance and maintainability, reducing page load times and improving code readability.
- Participated in agile sprint cycles, contributing to planning, code reviews, and timely delivery of project milestones.

Maintenance Crew Member — McDonald's

03/2023 – Present

- Maintained cleanliness and safety standards in accordance with health code regulations, contributing to successful internal audits.
- Trained new team members on basic maintenance procedures and safety protocols, increasing team efficiency.
- Conducted daily stock checks and rotations (FIFO), minimising waste and ensuring optimal product freshness.

EDUCATION

Richmond, The American International University

01/2023 – 05/2026

Bachelor of Science in Computer Science

*Completed coursework and projects in web development, machine learning, HCI/UX, and cybersecurity.
Received positive feedback on assignments, presentations, and practical work.*

Knowledge High School

05/2020 – 05/2021

Awarded A Grade.

TECHNICAL SKILLS

Languages: Python, Java, C, SQL, TypeScript

Web Development: HTML, CSS, JavaScript, React, Django, Next.js, Tailwind CSS

Databases: PostgreSQL, MySQL, SQLite — queries, schema design, optimisation

Machine Learning & AI: TensorFlow, PyTorch, scikit-learn — model building, training, and evaluation; LLM integration (Groq API, Llama)

DevOps & Tools: Docker, Git, GitHub, Google Colab, Vercel

Data & Analysis: IBM SPSS Statistics, Microsoft Excel (pivot tables, formulas, data analysis)

Design & UX: Figma

PROFESSIONAL SKILLS

Team collaboration · Time management · Fast learner · Communication · Inventory management · Customer service awareness · Strong work ethic · Safety & hygiene awareness

LANGUAGES

Gujarati (Native) · Hindi (Fluent) · English (Fluent) · Marathi (Basic)
